COUNTRY SA
SERVICES DIRECTORY

Background

The Country SA Services Directory website is designed to quickly identify availability of services across the Riverland, Mallee and Limestone Coast. The concept of the online services directory is to provide communities with current information about the health, community and support services available in their region. The directory also has a number of online resources and telephone services listed to assist people to find the right service at the right time to meet their needs.

The Country SA Services Directory is a high quality accessible, up-to-date online tool promoting your organisations activities and supporting timely care and referrals. An engaging platform designed around an evidenced based framework and person centred approach. A resource intended to strengthen coordination and linkages within your local community. Each aspect of the wheel represents a different domain of wellbeing and area connecting country SA people and services, which allows the user to select one of the six domains to find services to meet their needs. By clicking on any of these parts of the wheel, it will show you all services related to that area.

Users can also narrow the search engine to phone and online services, organisations or filter towns within each regional area and the distance. Services that are registered as NDIS services, are identified with the NDIS logo. Listed service providers can also update their details by going into their service information and clicking on 'suggest a change' on the right of the screen above the map and completing the box. There are no fees to be listed. For any new organisations interested in registering, this can be done by entering your information on the contact point on the Country SA Services Directory website and a form will be sent to you to complete your organisation details to add to the database.

Where to from here?

As a service provider, you have an option of saving the directory to your desktop, which will allow quicker access to this service and save time with your patients/clients. Please click [here](#) to find out how you can save the Country SA Services Directory as an icon on your desktop.
